ABOUT ME

I am a frontend developer from Venezuela based in Vienna looking for a full time job (remote).

In the last years I have worked with web platform projects ranging from web pages to web applications using different frameworks and libraries.

Nowadays I keep my focus on Reactjs/Nextjs, Typescript and TailwindCSS.

I'm curious by nature and always looking for challenges and ways to develop myself further.

EDUCATION

Bachelor Smart Engineering of Production, Technologie and Process.

FH St. Pölten, Austria |

2019-2023

Scrum, Javascript, React Native, Gitlab
