

ABOUT ME

I am a Frontend Developer based in Vienna looking for a full-time Job. I'm curious by nature and always looking for challenges and ways to develop myself further.

In the last years I have worked with web platform projects ranging from web-pages to web-apps using different frameworks and libraries.

Nowadays I keep my focus on React.js, React Hooks, Next.js, Typescript and TailwindCSS.

VISA: Student

NATHALIA LIMO

FRONTEND DEVELOPER

WORK EXPERIENCE

FRONTEND DEVELOPER

NAOS GMBH | SEP 2020 - PRESENT | ST. PÖLTEN, AUSTRIA

Naos develop internal talents (Software Development, Sales, Marketing) to combine with external partners. The aim is to found innovative companies that meet real market needs, are profitable and have growth potential.

JUNIOR FRONTEND DEVELOPER

JUL 2021 - PRESENT

Creation of web-apps and focus on the migration of existing projects to **Typescript**, **React.js** and **Next.js**. Creation of **Storybook** using **Chromatic** and build with **TailwindCSS** components.

To level up the quality of the code, as well as add consistency in style and formatting I worked with tools like **Prettier** and **ESLint**. **Husky** to ensure the code built and prevent bad commits.

All of this projects are connected to the **headless CMS Prismic** where the data is collected through the **API**.

I also worked with a very basic collection of data from the data bank **MongoDB**.

As the company is very small I also worked as a UX Designer for the product, taking responsibility of the realization of the user journey using **Miro** and the make of Prototypes & Frameworks using **AdobeXD**.

INTERNSHIP FRONTEND DEVELOPMENT

SEP 2020 - JUL 2021

Creation of web-pages and web-apps and implementation of changes proposed by the client and agreed by the team using **Javascript**, **JQuery**, **EJS**, **HTML**, **CSS**, **SCSS**, **Bootstrap**, **MUI**.

Methods: **OKRs**, **Agile**, **Shape up** (Variation of **Scrum**)

Tools: **Trello**, **Teams**, **timr**, **Miro**, **Canva**, **AdobeXD**
